SUMMARY

I am a backend developer with experience in Django and Django REST Framework. I enjoy building clean, scalable APIs and have experience working with authentication, multi-tenant setups, optimizing queries. I have handled deployments, asynchronous tasks with Celery, and the Jinja template engine. I like solving problems in a practical way and building systems that are both secure and flexible. In addition, I have hands-on experience with AWS services including S3 for media storage, EC2 for server hosting, and RDS for managed PostgreSQL databases.

SKILLS

Language	Framework	Tools	Interpersonal
• Python • C/C++ • JavaScript • SQL	• Django • DRF • Flask • FastAPI	• Git • PostgreSQL • Docker • Postman • Redis	• Problem Solving • Communication • Team Collaboration

WORK EXPERIENCE

Backend Developer, Careinfo Solutions	Mar 2024 - Present
• Developed and maintained scalable APIs for a multi-tenant SaaS platform • Designed and implemented a microservices-based architecture, splitting core functionalities into independent Django services communicating via REST APIs and Celery • Managed PostgreSQL databases, including schema design and query optimization • Automated deployment processes and managed infrastructure using AWS (EC2, S3, RDS) • Implemented caching strategies (e.g., Redis) to enhance application performance	

PROJECTS

RideSharing Application	Link
Technologies: Django, SQL, RESTAPI, PostgreSQL, ReactNative, GeoDjango	
• A ride sharing application with live location tracking, two-factor user authentication • Real-time ride matching between drivers and passengers.	
Student Forum	Link
Technologies: WebSocket, HTML, CSS, JavaScript, Django, PostgreSQL	
• Developed a forum where student can post and share their resources • Featured with chat and e-commerce service	

EDUCATION

Bachelor of Computer Engineering	
Kathmandu Engineering College	Jan 2020 - May 2024
Higher Secondary Education	
GoldenGate Internation College	May 2017 - June 2019
Primary - Secondary Education	
ChildrenLife English Boarding School	Feb 2016 - March 2017
